TM50 In-Wall Bracket Installation Manual

Instructions

- Select location for the TM50 and cut out drywall using the back cover of the in-wall bracket as a guide.
- 2. Insert back cover of the in-wall bracket, make sure the arrow is pointing in the UP position.
- 3. Screw the drywall anchors until they flush to the wall; do not over-tighten.
- 4. Secure TM50 backplate into the in-wall bracket.
- 5. Mount the TM50 into its backplate.
- Clip TM50 in-wall bracket cover to the TM50 in-wall bracket.
