

# DC102R4.7

CONTACT WITH 4.7K RES (WHITE)

## Easy Installation

The DC102-series are ideal for residential and commercial applications where terminal connections are preferred. The unit features positive clamping terminals with anti-rotation lugs and captured screws with combination heads. These features allow for easy, quick installations.

## Comprehensive Range

The range includes wide gap, SPDT and biased versions for higher security. This makes it one of the most popular contacts available in the industry today.

## Durability and dependability

These high performance magnetic contacts have been designed to facilitate installation and ensure durability and dependability. Most are conservatively rated at 10,000,000 cycles, guaranteeing a long life. Every reed connection is hand soldered and each magnetic contact is tested before they leave the factory.

## High quality components and materials

Reed legs are plated with rhodium or ruthenium, and hermetically sealed in dry nitrogen. This offers superior protection against sticking and provides a moisture free environment therefore preventing corrosion.

## Standard Features

- Ideal for residential and commercial
- Convenient surface mounting
- Versions with built-in resistors available

# DC102R4.7

CONTACT WITH 4.7K RES (WHITE)

## Specifications

General	
Application type	Surface Mount
Contact type	4K7 resistor
Connectivity	Screw
Wired/wireless	
Wired-wireless	Wired
Physical	
Physical dimensions	63 x 12 x 19 mm
Colour	White
Operating gap	18 mm
