AcuSense

Hikvision DS-2DE7S225MW-AEB(F1)(S5) 2 MP 25× Network Speed Dome adopts a 1/1.8" progressive scan CMOS chip and a 1/2.8" progressive scan CMOS chip. With the 25× optical zoom lens, the camera offers more details over expansive areas.

This series of cameras can be widely used for wide ranges of high-definition, such as the rivers, roads, railways, airports, squares, parks, scenic spots, and venues, etc.

Empowered by deep learning algorithms, Hikvision AcuSense technology brings human and vehicle targets classification alarms to front- and back-end devices. The system focuses on human and vehicle targets, vastly improving alarm efficiency and effectiveness.

- Single channel mode provides a wide-angle view to cover large areas. Dual channel mode provides both overview and detailed view with panoramic and PTZ channels
- Focuses on human and vehicle targets classification based on deep learning in single channel mode
- Supports face capture in single channel mode. Up to 5 faces captured at the same time
- Active strobe light and audio alarm to warn intruders off
- High quality imaging with 2 MP resolution
- 24/7 colorful imaging for the fixed-focal lens and excellent low-light performance with powered-by-DarkFighter technology for the varifocal lens
- 25× optical zoom provides close up views over expansive areas
- Expansive night view with up to 200 m IR distance

- DORI

The DORI (detect, observe, recognize, identify) distance gives the general idea of the camera ability to distinguish persons or objects within its field of view.

It is calculated based on the camera sensor specification and the criteria given by EN 62676-4: 2015.

DORI	Detect	Observe	Recognize	Identify

Typical Application

Hikvision products are classified into three levels according to their anti-corrosion performance. Refer to the following description to choose for your using environment.

This model has NO SPECIFIC PROTECTION.

Level	Description
Top-level protection	Hikvision products at this level are equipped for use in areas where professional anti-corrosion
	protection is a must. Typical application scenarios include coastlines, docks, chemical plants, and more.
Moderate protection	Hikvision products at this level are equipped for use in areas with moderate anti-corrosion
	demands. Typical application scenarios include coastal areas about 2 kilometers (1.24 miles) away
	from coastlines, as well as areas affected by acid rain.
No specific protection	Hikvision products at this level are equipped for use in areas where no specific anti-corrosion
	protection is needed.
